

I have enjoyed XM Radio for almost a year now and have found Instant traffic and weather very useful in my position as an insurance adjuster. Having instant Traffic helps me to avoid the congestion while traveling to different locations throughout the day. Also living in a very hot climate I am always listening to hear the current weather conditions.

I feel this has been a tremendous asset to not only my life but to my brother who travels for his job & rents only from Avis Car Rental because they offer XM Radio to help find the least congested roads to travel.

Sincerely Yours,

Lawrence Garrel
